

May 14, 1975

PRESIDENT: The question is shall the bill be returned for that specific amendment. That is LB305. Record your vote. Record.

CLERK: 26 ayes, 3 nays.

PRESIDENT: Senator Warner.

SENATOR WARNER: Mr. President, I move the amendment be adopted.

PRESIDENT: You heard the motion. Record your vote. Please vote. Record.

CLERK: 26 ayes, 0 nays.

PRESIDENT: The motion is adopted.

SENATOR WARNER: Mr. President, I move that LB305 be readvanced to E & R Engrossment.

PRESIDENT: You heard the motion. All those in favor say aye, those contrary nay. Bill is advanced.

CLERK: Mr. President, I move to return LB333 from Final Reading for specific amendment. Signed Senator Schmit. Read Schmit amendment.

SENATOR SCHMIT: Mr. President, I move the bill be returned for the adoption of the specific amendment as outlined. The reason for this is that when the bill was originally drafted, these two items were listed out of order on the list of ingredients that are included in the available materials in the bag of fertilizer. This brings the ingredient list of fertilizers in compliance with the similar lists of ingredients in all the various states and it simplifies the problem for those persons who identified the amount of available nutrient items in a bag of fertilizer this is all the amendment does and it was perhaps a mistake on my part that I didn't perhaps catch it in the first place and I move the bill be returned and the amendment adopted.

PRESIDENT: Senator Mills.

SENATOR MILLS: A question of Senator Schmit. Senator Schmit you scare me when you start talking about fertilizer and bags and analysis. Tell me exactly, I want to know exactly.

SENATOR SCHMIT: Well Senator Mills if you open your bill book to LB333 you will notice what we have done is that we changed the order of the ingredients that are listed on the bag of fertilizer. We drop I believe the two that are listed here to a different place in the list of ingredients. This and I was unaware of this, this means that at the present time if we adopt this amendment all of the ingredients in a bag of fertilizer in the various states will be listed in the same order. That is all that the amendment does. The Department of Agriculture called it to my attention after the bill had been introduced and
